CARTON EDGE EQUIPMENT INSTALLED AT INDUSTRY LEADER FACTORY - THE STANDARD GROUP

Carton Edge International - the leading worldwide supplier of cutting edge materials and related application equipment for consumer aluminum foil, cling film and wax and baking papers - has installed a Carton Edge Eco-Edge™ edging machine at The Standard Group's manufacturing facility in Louisville KY.

With a track record of innovation and excellence, serving the packaging industry for over 80 years, The Standard Group is one of the largest independent folding carton converters in the United States. The new technology positions The Standard Group as the latest supplier of Eco-Edge cutting edges for branded and private label consumer aluminum foil carton packaging, and most cling film cartons.

Key Facts:

- *The Standard Group owns and operates a 225,000 square foot plant in Louisville Kentucky*
- *The Standard Group provides folding cartons to many of the country's leading branded and private label manufacturers*
- *The Standard Group is the recipient of numerous accolades relative to its environmentally sustainable activities, including various awards for achievement from the Paper Packaging Council.*

With the installation, The Standard Group is able to supply cartons that have Carton Edge's patented Eco-Edge™ paper cutting edges to the packaging industry. This unique offering enables cutter boxes to be recyclable. Additionally, we will be a provider of cartons with traditional plastic and metal edges.
